A little bit of history

The Old Dunnings Mill is a Grade II listed building, acquired by Harvey's in 1993. The pub dates from 1713, but the name comes from the old corn mill constructed at the site during the 15th century. Straddling one of the Wealden tributaries of the River Medway, the mill may also have been known as Rowland's Mill and Frampost Mill in its time.

Built on what we now know as the Sunnyside Stream (aka the Dunnings Stream), the mill was powered by water stored in an adjacent mill pond, created by building a bay (dam) across the stream.

The name Dunnings, or 'Donnynges', associated with the mill would have been the name of the owner or tenant who constructed it.
